POSITION OPENING

**Position Title:** Research Opportunities  
**Location:** Cambridge, USA  

May 17, 2012

If interested, please send your CV, a portfolio and application letter to senseable-applicants(at)mit(dot)edu  
Clearly state the position title, your start and end date availability and the role that you are applying for (e.g. Postdoc, Visiting PhD Student, and etc.)

**POSITION DESCRIPTION:**  
SENSEable City Lab researchers come from various disciplines, including architecture, urban planning, physics, mathematics, engineering, computer science, and the arts. The lab emphasizes the importance of human behavior and emotion in the study of pervasive technologies in the urban environment. Research projects are developed and achieved through a team-based, multidisciplinary approach. In all lab projects, issues of design, visualization, functionality and form are paramount.

SENSEable City Lab offers funded and non-funded appointments to researchers with terminal degrees, as well as currently enrolled MIT PhD and Master candidates. MIT undergraduates are invited to submit proposals through the UROP program with the assistance of a supervising lab researcher. All researchers are expected to be physically based in the lab, conduct research that aligns with one or more ongoing projects, and have interest and expertise in one of the following areas of study: human-computer interaction, GIS, data fusion, semantic data modeling, data analysis and visualization, signal processing, human mobility, transportation, urban planning, architecture, and design.

Application guidelines and procedures:  
Submit an application by email to senseable-applicants@mit.edu, indicating status and desired position in the subject line (i.e. electrical engineering postdoc researcher; UROP in comp sci)  
Please include the following material:  
- Cover letter stating research background, interests, and desired position  
- CV or resume  
- Links or copies of relevant publications and/or portfolios  
- Letters of reference are optional

Post-Doctoral Researchers and Non-Academic Research Appointments:  
Funded and non-funded appointments become available on a rolling basis for applicants with terminal graduate-level degrees. Applicants without terminal degrees that demonstrate an equivalent combination of education and work experience will also be considered. Please submit your application to senseable-applicants@mit.edu, following the above guidelines.
Currently enrolled MIT PhD and Master Candidates:
Funded Research Assistant and hourly positions become available on a rolling basis for currently enrolled MIT graduate students of various disciplines. Independent Study for credit with Prof. Carlo Ratti is also available. Please submit your application to senseable-applicants@mit.edu, following the above guidelines.

Currently enrolled MIT Undergraduates:
UROP opportunities may be available for credit and/or direct UROP funding. UROP applicants must submit a proposal to the UROP program by the specified deadline for the semester of study. Notify the lab of your interest by e-mailing senseableapplicants@mit.edu at least ten days before the specified deadline, following the above guidelines. Please visit the UROP webpage for further information. http://mit.edu/urop/

Undergraduate Summer Interns:
As a general rule, SENSEable City Lab does not host undergraduate summer interns. Only under exceptional circumstances will summer internships be considered and are restricted to candidates that have existing US work eligibility.
